PERSONAL PROFILE

A highly focused and knowledgeable multi-skilled practitioner certified Bio-Identical hormone expert. Sheila has been practicing medicine for the past 18 years specializing in women's healthcare and more recently men's sexual health and wellness. She provides highly individualized, comprehensive and compassionate care. She is passionate about educating and empowering both men and women taking the time needed to address the root cause versus prescribing medications to treat their symptoms. She understands the difference between normal and optimal lab values. Once size does not fit all. She will create an optimal treatment plan just for you.
